

# CCTV Marine Mini Colour Camera

## CCTV - OCN CH100 M - Stainless Steel IP66, Mini Colour Camera

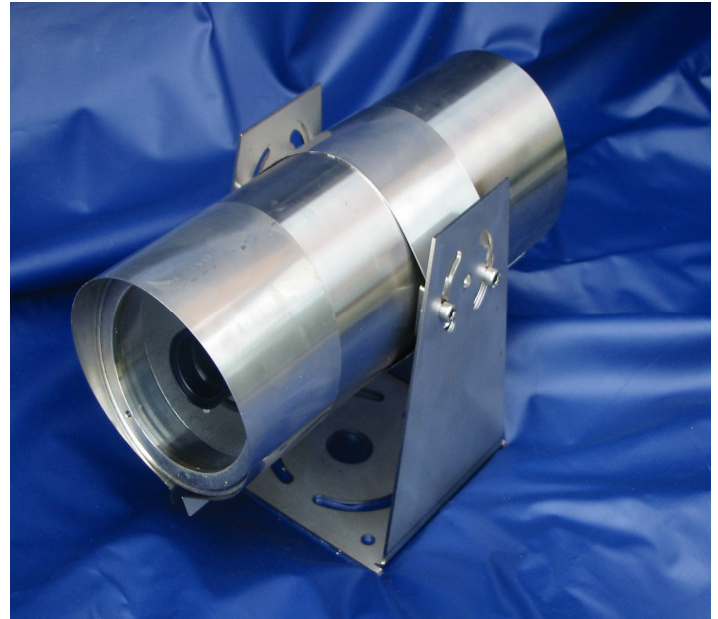

The compact miniaturized camera housing is manufactured in stainless steel (316L). Ingress protection is minimum IP66. Stainless steel mounting bracket is included.

The camera station is delivered complete with gland, sunshield and thermostatically controlled heating element.

The camera module inside the IP66 housing is selected according to customer requirements

- Day/night version available
- Normally >460TVLH resolution, PAL
- The compact and lightweight construction ensures high reliability even in tough physical environments (shock & vibrations) such as offshore oil & gas installations.

Please consult separate datasheets for further detailed information on camera/lens.
